Career Goal/ Objective

I want to gain experience and self-confidence when working with the general public. I hope to gain life skills and become more independent. Through my thorough work ethic, I will always push myself to put forward the best possible product while remaining open to feedback from others on how to make it even better. I will bring this attitude to any task I am put forward to do. Ultimately, I wish to become involved in a career that incorporates IT and art into one career, hopefully in the games or movie industry.

Education and Training

2017 – 2019 Bachelor of Information Technology at Monash University

2014 – 2016 John Monash Science School

2011 - 2013 Box Hill High School - accelerated program (SEAL)

Work experience: June 23rd 2014 – June 27th 2014

At VMware, Level 7, 28 Freshwater Place, Melbourne, 3006

Employment History

2017 - Present SAC/exam supervisor at John Monash Science School

2016 – 2017 Coach at Eastern Gymnastics Club

Employment related skills:

Communication:

* I was shortlisted as house-vice captain at John Monash Science School. I can eloquently communicate with people which is a great asset for when I am needed to converse with customers or peers in a professional and structured manner.

Commitment:

* Through my involvement in gymnastics over the last 6 years I have consistently arrived to training to ensure my continual improvement

Time Management:

* I am able to manage my time effectively by involving myself in a range of extracurricular activities on top of my regular university work.

Teamwork:

* Participating in rhythmic gymnastics, I often have to work with others. This, along with group projects completed at school has honed my teamwork skills. I find it easy to cooperatively work with others

Learning:

* Through my curiosity I often go above what is expected to learn more about subjects that interest me

* I am a fast learner and have mastered multiple skills over the past years. For example, learning several instruments over a few years (piano, violin and clarinet), competing in rhythmic gymnastics competitions, and trying new things when the opportunities arise, (Solar Car, NCSS challenge and other programming challenges)
